

**NEW BOOK  
and  
6-PART  
STUDY  
GUIDE  
for  
small groups**

In the mid-20<sup>th</sup> century singing was a joyful and sustaining expression of faith – and the words we sang were powerful.

This new book by Dr Judith Raftery explores the history and meaning behind the lyrics. Written with real warmth and a depth of scholarly understanding borne of years of study, *Singing the Faith* sheds light on Churches of Christ's thought and practice.

The 6-part study guide encourages readers to reflect on the words we sing and the role of singing in our faith lives – *no matter what our style of music.*
